

Durable Tableware

High-performance, durable
tableware for every application.

GenWare®: UNMATCHED QUALITY AND DURABILITY

GenWare® delivers meticulously engineered tableware for everyday functionality and durability. Our plates and bowls are made with 15% recycled polypropylene, and boast a rigid and sustainable design fortified with ribbing, ensuring unparalleled strength, integrity, and rigidity to withstand hefty portions. Crafted with non-absorbent and cut-resistant materials, GenWare® guarantees worry-free dining experiences, preventing liquids from seeping through and cutlery from damaging the plate. Moreover, they are microwave and dishwasher safe, offering convenience and versatility. The inclusion of Dome Lids for 6", 9", & 10" plates, and 12 oz bowls extends the utility of GenWare®, facilitating take-out options.

Durable and recyclable*, GenWare® tableware can be stored in the refrigerator, reheated in the microwave, and placed neatly in the dishwasher. GenWare® offers durable, versatile tableware designed for everyday use, featuring a rigid design, cut-resistant construction for a seamless dining experience.
